WORK EXPERIENCE (non industrial)

Logically I am **fresher** but I have an experience of 2+ years in **Android App development** and **Publishing** on Play Store

1. **Founder, Android Developer, UI/UX Designer**
   Farhan Apps | June 2014 – Present
   Play Store: http://play.google.com/store/apps/dev?id=5804146033395866032
   I have registered my brand "Farhan Apps" on Google Play Store for publishing my Android Apps

2. **Android Internship**
   Zorens infotech pvt. Ltd. | July 2016 – May 2017
   I worked here as Android trainee for my Final year industry defined project

PROJECTS

1. **Developer's Hub (Final year project)**
   Developer's Hub is an Android App which provides free libraries and source code for different programming languages and frameworks

2. **HitChat (3rd year project)**
   HitChat is Instant Messaging Android App. It has new feature of text format for changing color, bold, italic, underline options. It has also Emoticons to express emotions.

3. **Al Quran ul Kareem (37k+ downloads – 4.7 ★)**
   The Islamic holy book of Allah, Al Quran with the world's most authentic translation "kanzul iman" provided as text format in this Android Application.

4. **Surat ul Mulk (11k+ downloads – 4.8 ★)**
   Surat ul Mulk is the one chapter of Quran, This Android App contains "Surat ul Mulk" in Arabic Text with translation in English, Gujarati, Hindi, Urdu.

5. **My Website**
   I have made my personal website (www.farhanapps.pe.hu) for showing off my Apps and projects, made with Bootstrap framework.

6. **Platinum Optics (PC Software)**
   A JavaFX based customer purchase history database management and invoice generator software developed for a Client from Oman.

7. **IoT projects**
   I have very much interest in IoT and its applications. I keep experimenting by making IoT projects with Arduino UNO and ESP8266 wifi chip.

   Projects Link: www.farhanapps.pe.hu/projects
